AUTHENTICITY

This transcript is not valid unless it is embossed with the official seal of the University and bears the signature of the Controller of Examinations; without any erasure, corrections or overwriting.

GPA/CGPA

The Grade Point Average (GPA) is computed by multiplying the number of credit hours of each course by the points for the letter grade earned. The product is then divided by the total number of credit hours earned. The same formula is applied for calculating Cumulative Grade Point Average (CGPA).
